Water Conservation Awareness Mission

Aims and Objective:

1. To create awareness about use of water conservation process
2. To guide students, farmers, citizens about water conservation
3. To conduct a rally about water conservation by presentation of poster
4. To motivate and encourage the students, farmers and citizens. For use of water conservation

Beneficiary: Students, farmers, citizen's stakeholders from nearby villages

Contributors: Students of SYBA and TYBA Geography will work as volunteers during activity and staff of Geography department will supervise the activity.

Outcome: Students/farmers and citizens will learn following things from this activity:

5. They will learn about techniques of water conservation
6. Students and farmers will acquire skills of various methods of water conservation.
7. Students and citizens get knowledge about working and operation of various methods like Sustainable agriculture, Soil conservation, Water dam, efficient water system, Water managements Close Contour Trenches (CCT) etc.
8. They will understand necessity of water conservation for their future.

Conduction of activity /content:

6. Students prepare a poster of water conservation showing various methods.
7. Students give information of various water conservation methods.
8. Students will answer question regarding water conservation methods.

Renewable Energy Awareness Mission

Department of Physics conducted an outreach activity on Renewable Energy Awareness Mission for nearby villagers. Our activity focuses on raising awareness in villagers about renewable energy sources especially solar energy. Our college conducts this program to ensure that all the students, stakeholders are get engaged and be motivated for the use of solar energy.

As a social commitment, teachers and students of our department visit nearby village **Kelwad on 17th April 2023** to popularize & promote use of renewable energy sources, especially Solar Energy. In this activity, 8 students of S. Y. B. Sc. and T. Y. B. Sc. Physics and 2 teachers participated. Students of department explained working of solar dryer, solar cooker, parabolic reflector, PV system to the visitors. With the help of demonstrations, people get idea about necessity of use of solar energy. During the demonstration students also created awareness about the pollution & climate change, efficient use of electrical home appliances & renewable energy utilizing devices. School students and villagers visited and participated in this outreach activity.

Department of Physics is very thankful to Director and Principal Dr. S. S. Gholap sir for granting permission to this activity and also to provide necessary facilities to conduct this program. Appreciation Letter

The Department of Physics, Arts, Science and Commerce College, Rahata, conducted the “Solar Energy Awareness Program” on Monday 17/04/2023 in our Kelwad village. The students give demonstration of various solar instruments to farmers, villagers and school students. They also give detail information about solar energy and explain the necessity of Solar Energy to the villagers. The students created awareness about solar energy by door to door visit in village.

The Kelwad Grampanchayat is thankful to the College, Physics department and all volunteers.

Subject – Regarding permission for an Outreach Activity as Soil and Water Analysis.

Sir,

Department of Chemistry is going to organize an Outreach activity namely Soil and Water Analysis in Villages Khadkewake on Saturday 04/02/2023 from 9.30 am onwards. The students of Chemistry Department Will visit the villages and will collect the samples of soil & water from Farm. They will also explain the importance of soil-Water analysis and its advantages to the villagers. The objective of activity, list of participants is attached herewith.

Kindly give permission to conduct the activity in Khadkewake on 04/02/2023.

Thank you,

Yours Faithfully

Outreach Activity
Soil and Water Analysis

Aim and objective:-

- 1) To determine the level of nutrient found in a soil sample.
- 2) A soil test is important for several reasons: to optimize crop production, to protect the environment for contamination by runoff and leaching of excess fertilizers, to aid in the diagnosis of plant culture problems, to improve the nutritional balance of the growing media and to save money and conserve energy by applying only the amount of fertilizers needed.
- 3) To identify water quality of different water resources using different analytical methods.
- 4) To improve quality of water using suitable purification techniques. To provide a broad in-depth overview of important relationship between water quality and human health.
- 5) The main and basic objective of this soil and water testing program is to determine their fertility status and suitability as plant growing mediums.

Beneficiaries: - Students, Villagers, Farmers, Stakeholders from nearby villages.

Contributors:-T.Y.B.Sc. Chemistry Students will work as volunteers during activity and staff of Chemistry Department will supervise the demonstration and activity.

Outcomes:-

Soil Analysis Course Out Comes.

- 1) Gained in depth knowledge on the pattern of soil cover.
- 2) Able to characterize for effective utilization of land for agricultural purposes.
- 3) Import Knowledge about the techniques of soil Fertility evaluation.
- 4) Clear Understanding of soil health & soil Quality indices.

Water Analysis Course Out Comes.

- 1) Understand meaning of important parameter for measuring water Quality
- 2) Water Quality Criteria & Standards and their relation to crop.
- 3) Plan water quality surveillance for a given aquatic environment and to understand water a test result means in terms of the health of the ecosystem.

Conduction of activity/content:

1. Students prepare a poster that shows importance of Soil & water.
2. Students went to farm and collected the sample.
3. Explain benefits of soil & water analysis & its importance in future for mankind.
4. Student will answer questions regarding their Quires.

Report

Department of chemistry conducted an outreach activity Soil-Water Analysis for nearby villagers. The main and basic objective of this soil and water testing program is to determine their fertility status and suitability as plant growing mediums. Our college Conducts this program to ensure that all students, Farmers stake holders are get benefits of soil and water analysis and know its importance in future for mankind.

As a social commitment, teachers and students of our department visit nearby village Khadkewake on 4th February 2023 to determine the optimum soil & water test levels for various nutrients for specific soil and crop combination. In this activity 65 students of T.Y.B.Sc. Chemistry and 7 Teachers and 1 lab attendant participated. Student Volunteer explained benefits of soil & water analysis & its importance in future for mankind. soil test is important for several reasons: to optimize crop production, to protect the environment for contamination by runoff and leaching of excess fertilizers, to aid in the diagnosis of plant culture problems, to improve the nutritional balance of the growing media and to save money and conserve energy by applying only the amount of fertilizers needed. Farmers participated in this outreach activity.

Department of Chemistry is very thankful to Principal Dr. S. S. Gholap sir for granting permission to this activity and also to provide necessary facilities to conduct this program. Departments is also thankful to Sarpanch, all members of Grampanchayat, Villagers and visitors for kind cooperation during the activity.

"Tree Plantation"

Report

The Department of Botany at Arts, Science and Commerce College Rahata organized a tree plantation event on 17 April 2023 in the pleasant village of Khadakewake. The primary objective of this event was to promote environmental conservation and create awareness about the importance of trees and their role in maintaining ecological balance.

The event commenced with an inaugural ceremony, attended by faculty members, students, and local community members. The ceremony began with a prayer for the success of the plantation drive. The tree plantation event garnered enthusiastic participation from students, faculty, and members of the local community. The diverse group of participants reflected the collective commitment to environmental conservation.

The Department of Botany chose a strategic location in Khadakewake for the plantation drive. The selected site had been identified as an area in need of reforestation due to deforestation and ecological degradation. Various native and ecologically suitable tree species were carefully chosen for plantation. This selection aimed to restore the local ecosystem and support the biodiversity of the region. Participants, including students and community members, actively engaged in planting the selected saplings. Proper planting techniques were demonstrated, emphasizing the importance of ensuring the survival and growth of the newly planted trees.

The tree plantation event organized by the Department of Botany at Arts, Science and Commerce College Rahata in Khadakewake was a resounding success. It brought together people from diverse backgrounds to contribute towards a greener and more sustainable future. The initiative not only helped in replenishing the local green cover but also raised awareness about the vital role trees play in maintaining ecological balance and conserving the environment.

The Department of Botany is committed to fostering a sense of environmental responsibility and plans to organize similar events in the future to continue the noble cause of tree plantation and environmental conservation.

Dear Friends,

We are happy to inform you that a Two Days National Level Conference on **“Organic Farming”** is being organized on **March, 28-29, 2023** by the Department of Geography, Arts, Science And Commerce College, Rahata-423107 (Near Sai Baba's Shirdi), District-Ahmednagar (Maharashtra). This conference will be really helpful to maintain environment health by reducing the level of pollution. It helps in keeping agriculture production at a sustainable level

ABOUT THE COLLEGE-

Shirdi Sai Rural Institute (SSRI) was established in 1997 as a public trust by the vision of Late Dr. Balasaheb Vikhe Patil (Padma Bhushan awardee), Ex-Minister, Govt. of India, Founder Trustee, SSRI) with the moral support of Late Dr. Y. K. Alagh (Former Union Minister of State, Science and Technology, Govt. of India). The institute is doing progress under the able guidance of Namdar Shri. Radhakrishna Vikhe Patil, (Minister for Revenue, Animal Husbandry and Dairy Development, Govt. of Maharashtra) and Dr. Sujay Vikhe Patil, (Member of Parliament and Chief Executive Officer, SSRI, Pravaranagar). SSRI was established on the ideas and philosophy of Mahatma Gandhi, particularly concerning agriculture and rural development. The envisioned role of SSRI is to function as a catalyst for promoting rural development in the region

Arts, Science and Commerce College, Rahata was established in June 1997. Late. Dr. Balasaheb Vikhe Patil, (Padma Bhushan awardee) Namdar Shri. Radhakrishna Vikhe Patil and, Late Dr. Y. K. Alagh had a vision in their mind while starting this College. The strength of students was 141 when it was established, now strength is 1800+. Since then the college has been progressing. The college is located very close to holy place of Lord Sai Baba Shirdi. In the area of 21 Acres, 43 teaching and 28 non-teaching staff are taking effort to add the feathers in its cap. College is permanently affiliated to Savitribai Phule Pune University, and included in section 12 (b) and 2(f) of UGC.

Flourishing as a higher learning Centre in the region, for the upliftment of the poor and talented students 'Earn and Learn Scheme, skilled and entrepreneurship programme' are run by the College. For the excellent academic results, teachers are improving themselves through orientation, refresher, FDP course and research work. To inculcate the research culture among the student institute has started Shrimati Sindhutai Vikhe Patil Research Fellowship for PG students and Late Dr. Balasaheb Vikhe Patil (Padma Bhushan Awardee) special achievement scholarship is given to students achievement for special proficiency in education, social, sports, NCC, NSS etc.

In recognition of the excellent educational facilities provided and services rendered to the rural masses, the college has received **'Best Rural College'** Award from Savitribai Phule Pune University in the 2013. In academic year 2011-12 Student Welfare Board, Savitribai Phule Pune University has honored the college with **"Best College Award"**. Also NAAC has reaccredited the college at **"B++" Grade in 2018-19**. The college is just 5 kms away from Lord Sai Baba's Shirdi and 60 kms away from Lord Shani Shingapur.

ABOUT THE DEPARTMENT :

The Department has been established since the inception of the college. The faculty of the department is highly qualified and has published research papers in reputed national and international journals. The department of Geography has a equipped lab with advance instruments for quality learning. Many students have availed of the quality education provided by the department which as resulted in their getting job as teachers in schools, Jr. and Sr. colleges, officers in Govt. and non Govt. Dept. successfully conducted state and national level conferences/seminars on various subject as well as training programme for students.

Date: 28 - 29 March 2023

Report

Department of Geography of Arts, Science and Commerce College, Rahata organized two days National Level Conference on “Organic Farming” on 28-29 March 2023. The conference focused on Organic Farming methods, production and marketing in rural area. The programme started at 10:30 am with the welcome address by Dr. S. K. Pulate. The dignitaries on the dias were Prof. Praveen Saptarshi, Professor, environment Science, SPPU, Emeritues Professor, Salisbury University, USA. Hon'ble Sau. Shalinitai Vikhe Patil, Former President, Zilha Parishad, Ahmednagar, Prof. Arjun Musmade, Member of BoS, Savitribai Phule Pune University, Pune Dr. Mahesh N. Kharde, Director, Shirdi Sai Rural Institute, Pravaranagar and Prin. Prof. Somnath S. Gholap, Arts, Science and Commerce College, Rahata.

In the first day had a total of four session. Inaugural function was conducted in the first session. Prof. Praveen Saptarshi was invited as the Chief Guest to inaugurate the conference. Welcome speech and Introduction of the programme was given by vice Prin. Dr. S. K. Pulate. Dr. D. M. Nalage Coordinator of the conference introduced the main theme of the conference. All the dignitaries were felicitated by Dr. Mahesh Kharde and Prin. Prof. Somnath Gholap.

Keynote address was given by Prof. Praveen Saptarshi, Professor, Environment Science, SPPU, Emeritues Professor, Salisbury University, USA. Prof. Saptarshi gave his best wishes to the conference. He shared research work on organic farming and talk about its various benefit. He gave several example of organic farming and various production. He explained organic farming benefits the environment by minimizing population, reducing soil degradation, focusing on biological productivity, protecting soil from erosion, etc.

Hon'ble Sau. Shalinitai Vikhe Patil highlighted the importance of organic farming in details. Organic farming helps to maintain environment health by reducing the level of pollution. It helps in keeping agricultural production at a sustainable level. It reduces the cost of agricultural production and also improves the soil health.

Hon'ble sau Shalinitai Vikhe Patil giving presidential address in national conference 'Organic farming'

Second session conducted by Prof. Arjun Musmade. He explained India is the second largest populous country in the world. Agriculture is a main occupation in India. Organic farming is a form sustainable agriculture that has received significant regulatory support for its contribution to environmental preservation. These days organic foods are preferred by customers because they are produced without synthetic chemicals duly following animals welfare standards.

Third session conducted by Dr. Yogesh Thorat ICAR- Indian Institute of Sugarcane Research Biological Control Centre, Pravaranagar, (Maharashtra). Dr. Thorat explained organic farming for cash crop in details. He talk about sugarcane is a renewable, natural agricultural resources because it provides sugar, besides biofuel, fiber, fertilizer and myriad of byproducts/coproduces with ecological sustainability. He has given many examples in details of organic farming for sugarcane crop.

Prof. Praveen Saptarshi delivered his lecture on Organic Farming and Environment in Fourth session. He has explained many changes observed in the environment are long term, occurring slowly over time. Organic agriculture consider the medium and long term effect of agricultural interventions o the agro- eco system. Prof. Saptarshi valuable talk on soil and water health, air and climate change, biodiversity, genetically modified organism, etc. It is a

critical review of the relation between organic agriculture and the environment as well as other aspects is provided and presented.

Finally the paper presentation was held in seminar hall onwards 3:40 to onwards.

Dr. Dnyaneshwar Borse guiding on organic farming

Second day (Wednesday, 29 March 2023) had a total of three sessions. Session first was carried by Dr. Dnyaneshwar Borse, Scientist and Incharge, ICAR- Indian Institute of Sugarcane Research, Biological Control Centre Pravaranagar, (Maharashtra). Dr. Borase guiding us on Opportunities for Organic Sugarcane Cultivation. He explained the sugarcane production and use of chemical fertilizers in details.

In India Uttar Pradesh, Kamataka and Maharashtra together contribution to near about eighty percent total sugarcane production in India.

Second session was conducted by Dr. R. H. Autade, Entrepreneur, Godagiri Farms, Malewadi, discuss about Organic Fertilizers production and marketing. Organic fertilizers are naturally available mineral sources that contain moderate amount of plant essential, nutrients. He spoke about how to use organic fertilizers.

Third session (Online) was carried out by Prof. (Dr.) Prof. B. Srinagesh, Head Dept. of Geography, Osmania University, Hyderabad, Telangana, India, by online mode. Prof. B. Srinagesh guiding on the topic of Beneficiary of Organic farming.

Dear Sir,

The special winter camp of NSS of our college is organized at Ekrukhe from 03/01/2023 to 09/01/2023. Department of Physics is going to organize an Outreach activity namely Renewable Energy Awareness Mission in Ekrukhe village, Taluka Rahata, on Friday 06/01/2023 from 9.30 am onwards, where camp is organized. The students of Physics department will visit the camp and demonstrate various solar energy instruments. They will also explain advantages, benefits and applications of solar based instruments to the villagers. The objectives of activity, list of participants is attached herewith.

Kindly give permission to conduct the activity in Ekrukhe on

- Aims and objective:**
1. To create awareness about use of renewable/Solar Energy in daily life.
 2. To Guide students, stakeholders; about working of Solar light operated instruments.
 3. To give demonstrations about handling process of Solar cooker, solar dryer, solar heater, PV system, etc.
 4. To motivate and encourage the visitors, students, for use of Solar Instruments.
 5. Awareness about Energy saving, pollution due to Electricity generation.

Beneficiaries: Students, Villagers, stakeholders from nearby villages.

Contributors: Students of SYBSc and TYBSc physics will work as Volunteers during activity and Staff of Physics department will supervise the demonstration and activity.

Outcomes: Students/Visitors will learn following things from this activity:

1. They will learn about techniques of use of solar instruments.
2. Students will acquire demonstration skill of various instruments.
3. Visitors get knowledge about working and operation of various instruments like Solar Cooker, heater, dryer, etc. They will understand the skills in writing essays, summary etc.
4. They will understand necessity of solar energy for their future.

Conduction of activity/Content:

1. Students Prepare a poster of solar instrument showing its various parts.
2. Students give live demonstration of various instruments.
3. Students will answer questions regarding working and explain benefits of instrument.
4. Students clarify queries of visitors and encourage to use Solar instruments.
5. Explains benefits of solar energy and its scope in future for mankind.

Department of Physics conducts an outreach activity on Renewable Energy Awareness Mission for nearby villagers. Our activity focuses on raising awareness in villagers about renewable energy sources especially solar energy. Our college conducts this program to ensure that all the students, stakeholders are get engaged and be motivated for the use of solar energy.

As a social commitment, teachers and students of our department visited nearby village Ekrukhe on 06th January 2023 to popularize & promote use of renewable energy sources, especially Solar Energy. In this activity, 8 students of S. Y. B. Sc. and T. Y. B. Sc. Physics and 2 teachers participated. Students of department explained working of solar cooker to the visitors. With the help of demonstrations, people get idea about necessity of use of solar energy. During the demonstration students also created awareness about the pollution & climate change, efficient use of electrical home appliances & renewable energy utilizing devices. School students and villagers visited and participated in this outreach activity.

Department of Physics is very thankful to Director and Principal Dr. S. S. Gholap sir for granting permission to this activity and also to provide necessary facilities to conduct this program. Department is also thankful to Sarpanch, all members of grampanchayat, Villagers and visitors for kind cooperation during the activity.

“Distribution of Medicinal Plants”

Report

The Department of Botany initiated a program to distribute medicinal plants in various people as part of our promise to promoting environmental awareness and the significance of herbal remedies for health and wellness.

Department of Botany Organized a medicinal plant distribution on 13th July 2022 and 22nd August 2022, under the guidance of Principal Prof. Sanjay Lahare. Medicinal plant distribution events were held at Khadkewake, involving participants including 17 students, 3 staff, and 40 peoples. The event focused on distributing plants such as Tulsi, Aloe Vera, and Adulsa, Neem and Arjun etc., These initiatives aimed to promote traditional healthcare practices, enhance local biodiversity, and raise awareness about the health benefits of medicinal plants.

Principal Prof. Sanjay Lahare provided valuable insights on the usage and care of these plants, ensuring that participants understood their importance and fostering a community-driven approach to sustainable health practices.

“Medicinal Plant Exhibition”

Report

Department of Botany of Arts, Science and Commerce College, Rahata have organized **“Medicinal Plant Exhibition”** on **Friday 23rd September, 2022 in Nighoj** under the guidance of Hon. Director Dr. Mahesh Kharde and Hon. Principal Prof. Dr S.S. Gholap.

A medicinal plant is any plant which contains biochemical substances which can be used for beneficial purposes. The main objective of medicinal plant exhibition is to create awareness on the value of medicinal plants and to promote its cultivation and conservation. The main aim of the event was to highlight the creativeness among the students & others.

The Exhibition was chaired & inaugurate by the Dr. Digambar Mokat. In his presidential address he focused on the importance, conservation, and sustainable use of medicinal plants. In the exhibition students collected various kinds of medicinal plants. The students collected over 47 varieties of plants which are of medicinal importance. They presented the potted medicinal plants as well as described their medicinal values and uses. They told the importance of growing medicinal plants in the household area. Department of Botany is actively participated in the conservation and plantation program during the year to aware people and students about the value of medicinal plants. They provided useful information regarding the use, conservation, and plantation of the medicinal plants.

The main idea behind the exhibition was the vision of Head, Dept. of Botany Prof. S. V. Lahare to conserve nature and develop a complete knowledge about medicinal plants. He gave introductory speech and Dr. V. S. Patil introduced the President of the program. The staff members and 23 students from botany department made efforts to make this exhibition successful. Total 145 participants visited in this Exhibition.

ACTIVITY DETAILS

Introduction-

A medicinal plant is any plant which, in one or more of its organs, contains substances that can be used for therapeutic purposes or which are precursors for the synthesis of useful drugs. This description makes it possible to distinguish between medicinal plants whose therapeutic properties and constituents have been established scientifically, and plants that are regarded as medicinal but which have not yet been subjected to a thorough scientific study.

Social Commitments:

1. Encouragement of cultivation and conservation of Plants.
2. To create optimum awareness and interest amongst the common people about Medicinal Plants
3. To conserve the bio-diversity of Medicinal Plants.
4. To develop awareness for utilization of herbal medicines for home remedies.

About Activity-

A plantation program of medicinal plants was organized by the Department of Botany, Arts, Science and Commerce College, Rahata in the village Khadkewake on 11th August 2022. The

students of Botany department along with faculty planted saplings of medicinal plants in college campus and in the village Khadkewake as a initiative to spread awareness about the importance of plantation, forest conservation and to save the environment. Our students also educated the people about the benefits of plants especially medicinal plants.

Outcomes-

1. Students and villagers get an awareness of medicinal plants.
2. Students understand the value of medicinal plants and their conservation.
3. Villagers attentive about usefulness of plants in treatment of diseases.
4. Students decided to plant more medicinal plants in their home garden and field.

Conclusion –

Department of Botany is actively participated in the conservation and plantation programme during the year to aware people and students about the value of medicinal plants. They provided useful information regarding the use, conservation and plantation of the medicinal plants.

REPORT

Department of NCC and NSS of Arts, Science and Commerce College, Rahata has been jointly organized “Zade Lava Zade Jagva Abhiyan 2022” on 11th August, 2022 and 12th August, 2022 under the guidance of Hon. Director Dr. Mahesh Kharde sir and Hon. Principal Prof. Sanjay Lahare Sir. This programme was organized for the reason that trees are very important in human life. We call the doctor who gives us oxygen for an hour as God and we do not value the trees which give us oxygen for the whole life. When we plant trees, greenery will spread around, pollution will be reduced, and air will be clean. Today the number of trees is decreasing due to which the balance of the environment is disturbed and its consequences are being suffered by man. So it is very important to plant trees and it is more important to take care of them. Even if one tree is planted from each house, there will be many trees. Planting and maintaining roadside trees will definitely benefit the travelers and also keep the environment under control. So keep those things in mind the said program was organized and planned to plant medicinal plants in nearby villages of Rahata Tahsil.

In this event we planted about 200 various kinds of plants with the help of our NCC Girls cadets, NSS volunteers and all teaching and non teaching staff of the college. Dr. V. S. Patil and Dr. S. R. Potdar have been taken efforts for the successful completion of the programme. Efforts have been taken to create awareness amongst the about tree plantation. So we aware them about all should plant trees. Trees are very important in human life. It is because of this that we get the oxygen we need. Also, the three basic needs of man are fulfilled from the tree, food, clothing and shelter. Tree is nature's gift to man. There is an unbreakable relationship between human life and trees. Trees are the beauty of nature. So we should preserve this beauty of nature and also enjoy it. For that we need to plant maximum number of trees.

REPORT ON VANMAHOTSAV- 2022

Department of Botany and Department of Geography of Arts, Science and Commerce college, Rahata have been jointly organized Vanmahotsav- 2022 on 8th July, 2022 and 9th July, 2022 under the guidance of Hon. Director Dr. Mahesh Kharde sir and Hon. Principal Prof. Sanjay Lahare Sir. Greenery, as a whole, helps in maintaining ecological balance. Since trees are such a vital part in the ecosystem, it is the duty of each and every individual to preserve vegetation and root for a healthy, pollution-free environment.

However, due to urbanisation and industrialisation, more and more trees are cut down every day. Deforestation is an emerging concern and Van Mahotsav aims to conflict the environmental imbalance caused due to this action. So the main aim of the programme was to inculcate the socialism within students. It aims to encourage students of our college to plant more and more trees. Deforestation is a serious concern, hence Van Mahotsav aims to bring more and more people together to grow and save forests in the country. The first week of July is just the right time for planting trees in most parts of India since monsoon joins that time. Therefore we planted trees and celebrated Vanmahotsav on 8th July, 2022 in nearby villages of Rahata tahsil.

In this event we planted about 500 various kinds of plants with the help of our college, students, NCC Girls cadets and teachers. Dr. Varsha Patil, Prof. C. M. Bansode, Miss. P. G. Bothe and Dr. S.R.Potdar have been taken efforts for the successful completion of the programme.

Subject: Regarding permission for an Extension/Outreach Activity as **Solar Energy Awareness Mission**

Respected Sir,

With reference to above mentioned subject, Department of Physics is going to organize an Extension/Outreach activity namely **Solar Energy Awareness Mission** in Ekrukhe village, Taluka- Rahata, on Thursday, 06/01/2022 from 9.30 am onwards. The students of Physics department will visit village and demonstrate various solar energy instruments. They will also explain advantages, benefits and applications of solar based instruments to the villagers. The objectives of activity, list of participants are attached herewith.

Kindly give permission to conduct the activity in Ekrukhe village on 06/01/2022.
Thank you.

Extension/Outreach Activity Solar Energy Awareness Mission

- Aims and objective:**
1. To create awareness about use of Solar Energy in daily life.
 2. To Guide students, stakeholders; about working of Solar light operated instruments.
 3. To give demonstrations about handling process of Solar cooker, solar dryer, solar heater, PV system, etc.
 4. To motivate and encourage the visitors, students, for use of Solar Instruments.
 5. Awareness about Energy saving, pollution due to Electricity generation.

Beneficiaries: Students, Villagers, stakeholders from nearby villages.

Contributors: Students of SYBSc and TYBSc physics will work as Volunteers during activity and Staff of Physics department will supervise the demonstration and activity.

- Outcomes:** Students/Visitors will learn following things from this activity:
1. They will learn about techniques of use of solar instruments.
 2. Students will acquire demonstration skill of various instruments.
 3. Visitors get knowledge about working and operation of various instruments like Solar Cooker, heater, dryer, etc. They will understand the skills in writing essays, summary etc.
 4. They will understand necessity of solar energy for their future.

Conduction of activity/Content:

1. Students Prepare a poster of solar instrument showing its various parts.
2. Students give live demonstration of various instruments.
3. Students will answer questions regarding working and explain benefits of instrument.
4. Students clarify queries of visitors and encourage to use Solar instruments.
5. Explains benefits of solar energy and its scope in future for mankind.

Report of Activity “Solar Energy Awareness Mission”

Date-06/01/2022

Place- Ekrukhe

Department of Physics runs an extension/outreach activity as **Solar Energy Awareness Mission** for nearby villagers. Our mission focuses on popularization and raising awareness by educating all stakeholders. The department manages the program to ensure that all the students are engaged and motivated for the use of solar energy and energy conservation. Once the student understand and become fully aware of the benefits of solar energy and its benefits, they become an important tool in helping you to achieve your energy management goals.

As a social commitment, teachers and students of physics department visit nearby village Ekrukhe on **6th January 2022** to popularize & promote use of renewable energy sources, especially Solar Energy. There are 16 students and 4 teachers participated in this extension activity. During the visits, awareness is created about the pollution & climate change, efficient use of electrical home appliances & renewable energy utilizing devices. Students of physics department explained working of solar dryer, solar cooker, parabolic reflector, PV system to the visitors. With the help of demonstrations, people get idea and get aware about necessity of use of solar energy. All NSS volunteers, program officers, school students and villagers visited and participated in this extension/outreach activity.

Department of Physics is very thankful to Dr. M. N. Kharde, Director of SSRI, Prof. S. V. Lahare, Principal of College, Dr. D. N. Dange, NSS program officer, Mr. Jitendra Gadhave, Sarpanch, Mrs. Saatav, Mr. Bhawar Members of Grampanchayat for giving an opportunity to serve society during NSS winter camp.

“Seed Ball Activity”

Aims and Objectives-

Aims-

1. Improve soil fertility and prevent erosion through the growth of various plant species.
2. Increase plant diversity in the area, which supports wildlife and helps maintain ecological balance.
3. Encourage the growth of native plants and trees to restore and enhance local ecosystem.

Objectives-

1. Engage participants in the process of creating seed ball, using seeds and soil.
2. Organize events to distribute and sow seed balls in targeted areas that need greening.

Beneficiaries- Students, Villagers.

Outcomes-

1. Successfully increased the green cover in and around Adgaon village by planting a significant number of trees and plants through the seed ball method.
2. Improved biodiversity in the area by introducing a variety of native plant species, providing habitats for local wildlife, and supporting ecosystem stability.
3. Enhanced soil health and reduced erosion through the growth of native plants and trees.
4. Provided hands-on learning experiences for students of botany and environmental science, enhancing their understanding of plant biology, ecology, and conservation techniques.

Report on

“Seed Ball Activity”

On 20th July 2021, the department of Botany organized a Seed Ball Activity at Adgaon Village, involving the participation of Second Year B.Sc. (S.Y. B.Sc.) students and staff members. This initiative aimed to promote reforestation, enhance biodiversity, and raise environmental awareness among the local community and students.

The native tree species like *African tulip* (flame of the forest), *Bauhinia variegata* (Kanchan), *Azadirachta indica* (Neem) etc. were selected for seed ball preparation to ensure compatibility with the local ecosystem. Areas in Adgaon Village that required reforestation were identified and marked. Participants travelled to Adgaon Village and dispersed the seed balls in the pre-selected areas. The seed balls were sown by scattering them across the targeted locations.

Approximately 100 seed balls were sown, which are expected to grow into healthy trees and plants, increasing the green cover in Adgaon Village. The introduction of plant species is expected to improve the local biodiversity, providing habitats for various wildlife species.

The excited participation of S.Y. B.Sc. students and staff members, along with the support of the local community, made this initiative successful and impactful.
